Dear Dr. S. A. Iqbal,

Chief Editor

Oriental Journal of Chemistry

After reviewing the manuscript ID OJC-13104-19 .

I have some suggestions including

1. Abstract part: It needs to add all of the optimum conditions data.
2. More references can be added to support the result and discussion part in every aspect of influencing factors.
3. Figures can be of more resolution in-order to make it more visible
4. All of the equations can be of more resolution in-order to make it more visible
5. Referencing system needed to be in OJC style
6. Keep a standard method of unit format all over the document. For example;  $\text{mg L}^{-1}$ ,  $\text{mg/L}$ , ppm,  $\text{Pb}^{2+}$ , Pb(II)

Review Decision: The paper is accepted after minor modification.

The attached file is the **Review Report of Manuscript**

Dear Dr. Prawit Nuengmatcha,

I am writing to you as Editor-in-Chief of **Environmental Engineering and Management Journal**, edited by the *Department of Environmental Engineering and Management* under the aegis of the "Gheorghe Asachi" Technical University of Iasi since 2002. Our journal is published monthly, in 12 issues. In 2007, it was included in Science Citation Index Expanded and Web of Science. Also, the journal is covered by SJR, SCOPUS as well as other international databases (<http://omicron.ch.tuiasi.ro/EEMJ/>).

Journal Citation Reports published the impact factors of *Environmental Engineering and Management Journal* since 2009. The Impact factor for 2018, published by JCR in 2019 is 1.186.

As an author of papers in the field, I'd like to ask you to evaluate a paper sent for publication in our journal. We would be very grateful if you will find some time to evaluate the paper in **three weeks**, if possible.

Please find attached **the abstract, the evaluation form and the Instructions for authors**. Any notification on plagiarism tentative would be very valuable for us.
